There will be a pic-nic and speeches at Camp Mewhinney, in Riley township to day. Capt. M.'s company is about full, and will go into camp here soon.

A remarkable change came upon the air vesterday afternoon, the mercury sinking to below 60 degrees. We are at a loss to imagine the cause.

PROPRESTING .- Our neighbor Cookerly, on Saturday night, in his "sarment" uttered a prophecy, and we place it on record that time may determine to which class of prophets he belongs. It was as follows: "If the war is not ended in twelve months from now, the people will rise in their might, and stop it."

The "Tigers," agreeably to arangement, marched to Camp Vigo, last evening, where they have been made as comfortable as the nature of the case would admit. Other companies are expected to arrive by the first of next week, when the camp will be regularly organized.

TELEGRAPHIC NEWS.

WASHINGTON, Aug. 11. The Secretary of War has sent a letter to Gen. Butler in reply to his communication regarding the dispositien of fugitives. The letter after discussing the matter pretty fully concludes by saying: "Under these circumstances, it seems quite clear that the substantial rights of loyal masters, are still best protected by receiving such fugitives as well as those of disloyal masters into the service of the United States, and employing them under such organizations and such occupations as circumstances m sy suggest or require. Of course a record should be kept, showing the name and description of the fugitives, and such facts as may be necessary for a correct understanding of the circumstances of each case. When tranquility shall have been restored, Congress will doubtless properly provide for all the persons thus received into the service of the Union, and for a just compensation to

loval masters. You will, however, neither authorize nor permit any interference by the troops under our command, with the servants of peaceable citizens in house or field, nor will you in any way encourage such servants to leave the lawful service of their masters, nor will you prevent the voluntary return of any fugitive to the service from which he may have es-

Our correspondent on board the sloop ofwar Brooklyn off the mouth of the Mississippi, gives some interesting information relative to the condition of affairs at New Orarmy, who made his escape down the Mississippi. He reached the vessel in safety after considerable hardships. The city according to his accounts, is in a fearful condition of terrorism, caused by bands of cut-throat soldiers stationed there, who are in a most comolete state o demoralization and commit acts of the basest nature. Houses had been entered, families broken up and men had been threatened with the direst vengeance, unless their wants were supplied. MEDICAL.

Ayer's Sarsaparilla! COMPOUND REMEDY, DESIGNED TO BE the most effective ALTERATIVE that can be made.

It is a concentrated extracted of Para Sarsaparilla, so combined with other substances of still greater al-terative power as to afford an effective antidote for the diseases Sarsaparilia is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our fellow-citizens.— How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Scrofula and Scrofulous Complaints, Eruptions and
Eruptive Discusses, Ulcers, Pimples, Biotches,
Tumors, Salt Rheum, Scald Head, Syphilis
and Syphilitic Affections, Mercurial Disease, Drepsy, Neuralgia or Tic Doloureux, Debility, Dyspepsia and
Indigestion, Erysipelas, Rose
or St. Anthony's Fire,

and indeed the whole class of complaints arising from Impurity of the Blood. This compound will be found a great promoter of health, when taken in the Spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multi-tudes can, by the aid of this remedy, spare themselves from the endurance of foul eru, tions, and ulcerous sores, through which the system will strive to rid itself of communities. rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood when ever you find its impurities bursting through the skin in pimples, cruptions or sores; cleanse it whenever you find it obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer or cleansing the blood. Keep the blood healty, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has

tion of accomplishing these ends. But the world has been egregiously deceived by the preparation of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated ex-

arilla, or anything else. During late years the public have been mislead by large bottles, preten ling to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain ittle, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised and has become synonymous with imposition and cheat. Still we call this competed Sarsaparilla, and intend to supply such a tempedy as shall rescue the name from the load of obloguy which rests upon it. And we think load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistable by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy sho'd be judiclously taken according to the direction on the
